

Allergen-Friendly Information & Menus

We know how challenging it can be for you and your family to make informed food selections when dealing with a food allergy. This section is dedicated to communicating Allergen-Free menu options for our restaurants and concession stands throughout the park, by addressing each of the 8 most common allergies. Here are some of the resources available to you when planning your meals.

- Review the information on allergen-specific menu options that are available at our many restaurants. Upon arrival at our restaurant or concession locations, confirm the product information for your menu choices to ensure they are allergen-free.
- Contact the **Silver Dollar City Food Department at 800-251-5576** or send an email. A friendly staff member is available to assist with your meal planning and questions.
- Ask to speak with a manager at any of our restaurant locations on park. These individuals are best suited to provide information regarding meal ingredients when you are visiting the park. Ingredient labels are available for guest review in all restaurant and concession locations. A member of the management team will be able to assist you in obtaining the information necessary for you to make an informed choice.

Meal Delivery Service

It is our goal to bring families closer together when they visit Silver Dollar City. Recognizing that meal planning can be a difficult task for families dealing with a food allergy, we have developed a prepackaged meal delivery service on request.

Simply call 800-251-5576 or email us and we will deliver a prepackaged allergen-free meal of your choice to the location you specify during your visit to the park. You may choose from the list of pre-packed meal selections below, or we will assist you by coordinating a personalized allergen-free meal from the variety of menu selections available. Please allow 48 - 72 hours prior to your visit, so that we may develop your custom allergen-free meal.

Please notify food management staff if your allergy is severe or requires an isolated environment for cooking or preparation. Please check with staff to verify that no food substitutions have been received on the day of your visit.
